

Executive Summary: Privacy Review Packet

Synthetic Data Exposure Review

Prepared for local redaction/anonymization QA - no real personal data.

NAME ADDRESS EMAIL PHONE CARD/IBAN SECRET

This 10-page packet simulates a realistic privacy audit report. It intentionally contains fake names, fake addresses, fake financial identifiers, fake credentials, screenshots, tables, headers, footers, charts, and mixed layouts. Use it to test document-mode detection, manual redaction boxes, color overlays, flatten-to-PDF export, and ZIP page image export.

Primary fake contact

Eva Novakova
eva.novakova@example.test
+420 777 123 456

Fake office address

Klatovska 123/45
301 00 Plzen
Czech Republic

Contact Directory and Access Register

The following table is designed to trigger name, email, phone, organization, address, and ID recognizers. All rows are fabricated for anonymizer testing.

Person	Role	Email	Phone	Badge / ID
Eva Novakova	DPO	eva.novakova@example.test	+420 777 123 456	OP-938204771
Matej Kral	Security Lead	matej.kral@privacyharbor.test	+420 608 555 019	PASS-TST-493820
Sofia Ramirez	Vendor Manager	sofia.ramirez@example.test	+34 600 555 021	XZ-772-FAKE
Jonas Weber	Auditor	jonas.weber@example.test	+49 941 555 0182	DEMO-AC-204
Nina Horakova	Finance	nina.horakova@example.test	+420 733 555 221	FIN-00923

Office locations: Klatovska 123/45, 301 00 Plzen; Teststrasse 8, 93047 Regensburg; Calle Falsa 42, 28013 Madrid. Emergency phone list includes +1 202 555 0144 and +420 777 123 456. Internal endpoint: <https://privacyharbor.example.test/secure-review>.

Incident Report: Public Screenshot Review

Case ID PH-INC-2026-041. A customer sent a screenshot containing visible emails, document IDs and a partial address. The report below mixes normal text, sidebar notes and a screenshot-like block.

Mock customer support screenshot

From: customer.alice@example.test Phone: +1 202 555 0144
Address: 42 Example Lane, Demo City, CA 90210
Order URL: https://orders.example.test/case/PH-INC-2026-041
IP observed: 198.51.100.17
Message: Please remove my old invoice with card 4111 1111 1111 1111.

Expected hits

email, phone, URL
address, IP address
credit card number

Manual redaction area

Screenshot title bar
Visible message body
Any false negative text

Finance Appendix: Payment Tokens and Bank Data

This page is intentionally dense with financial identifiers. Credit card numbers are test numbers and IBANs are sample values. Use Luhn validation and IBAN recognizers.

Type	Value	Owner	Note
Visa test card	4111 1111 1111 1111	Eva Novakova	Recurring billing
Mastercard test	5555 5555 5555 4444	Nina Horakova	Finance test
IBAN CZ	CZ65 0800 0000 1920 0014 5399	Privacy Harbor Labs	Demo bank
IBAN DE	DE89 3704 0044 0532 0130 00	Regensburg Office	Demo bank
VAT	CZ00000019	Privacy Harbor Labs s.r.o.	Fake VAT

Crypto payout wallet: 0x742d35Cc6634C0532925a3b844Bc454e4438f44e. Cold storage note: bc1qw508d6qejxtdg4y5r3zarvary0c5xw7kygt080. These should be detected as crypto-address-like sensitive data.

Export test

Blackout should cover entire value
Blur should be baked into pixels
Text layer must not remain

False-positive check

Amounts like EUR 1,900.00
Dates like 2026-04-13
Invoice IDs

Technical Appendix: Logs, IPs and Secrets

This page targets technical secret recognizers: API keys, bearer tokens, private key headers, hostnames and IP ranges reserved for documentation.

```

Expected redactions

Emails, IP addresses, URLs, API tokens, bearer tokens, fake private key header, AWS-like key

HR Onboarding: Identity and Emergency Contact Data

This page contains fake Czech birth-number-like values, dates of birth, ID numbers and emergency contacts. It is useful for testing mixed locale PII.

Field	Employee A	Employee B
Name	Eva Novakova	Jonas Weber
Birth no.	880314/1234	760101/0009
Date of birth	14.03.1988	01.01.1976
Passport	PASS-TST-493820	PASS-DEMO-22190
Address	Klatovska 123/45, Plzen	Teststrasse 8, Regensburg
Emergency phone	+420 777 123 456	+49 941 555 0182

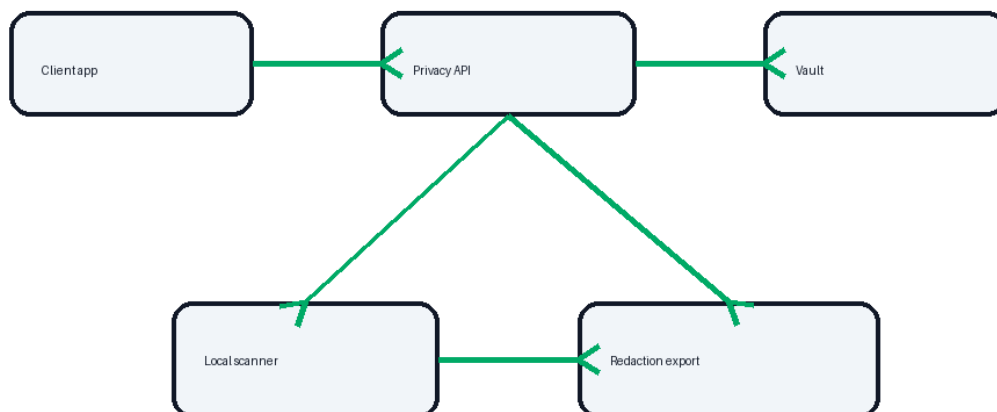

Consent reviewer: Sofia Ramirez, sofia.ramirez@example.test. HR file URL: <https://hr.example.test/files/onboarding-demo>. The values are synthetic, but the layout mimics a real HR intake sheet.

Vendor Assessment: Organizations, URLs and Locations

This multi-column page tests organization/location recognition and redaction in dense business prose.

Northwind Demo Services Ltd. submitted the processing agreement from 17.05.2026. Primary contact billing@northwind-demo.test uses the office at Demo Square 12, 110 00 Prague. Their audit portal is <https://vendor.northwind-demo.test/audit> and the observed IP is 203.0.113.88.

Example Analytics GmbH operates from Teststrasse 8, 93047 Regensburg, Germany. Contract owner Jonas Weber can be reached at jonas.weber@example.test or +49 941 555 0182. The service endpoint is <https://analytics.example.test/v2/events>.

Synthetic diagram: boxes intentionally contain no real systems

Meeting Notes: Mixed Layout Redaction Challenge

The notes below combine bullet lists, action items and a form-like block. They are intended to test selection review and manual zones.

- Action: Matej Kral will rotate sk_test_FAKE_51Mz9PrivacyHarbor000000 before Friday.
- Action: Eva Novakova will email eva.novakova@example.test with the DPA summary.
- Risk: contract screenshots expose +420 608 555 019 and Klatovska 123/45.
- Risk: old invoice shows IBAN CZ65 0800 0000 1920 0014 5399.

Data Map and Screenshot-like Artifacts

This page combines diagram labels, screenshot images, small text, addresses and identifiers. It is meant to test page rendering and redaction on image-like areas.

Viewer test

Small screenshot text may require manual redaction boxes if text extraction cannot map coordinates.

Final page intentionally repeats all major fake sensitive data categories in prose and in a compact checklist. Use this page to test select-all, deselect false positives, and flattened export.

Signature block: Approved by Eva Novakova on 13.04.2026. Contact: eva.novakova@example.test. This file is a synthetic QA fixture and must not be interpreted as a real company document.
